Greetings OSTC Parents/Guardians:

Oakland Schools Technical Campuses (OSTC) will be moving to virtual/online learning for the 2020-2021 school year until further notice. Once it was clear that a vast majority of the districts in the county were moving to virtual/online instruction, as a service agency, we need to ensure we are aligned with the local districts we serve.

Please watch for further communication from your building Dean with building and program specific information. If you have questions, please contact the Dean for your respective campuses directly.
